

The XD02 is a drum kit microphone set including the passive summary mixer SDM1 which allows to pick up more instruments while less channels will be needed

The XD02 Drum Microphones Kit includes everything you need to completely mic a drum kit set-up in a professional live or studio application. The Kit includes both Condenser and Dynamic microphones, each one tailored for its specific application. All of the microphones in the Kit feature a cardioid pickup pattern. All the accessories needed, rim mount clamps and wind shields are supplied. An SDM1 passive mixer is supplied within the Kit, it allows to use all the microphones of the Kit also in the situations in which the channels available on your mixer are not enough to wire separately each mic. The complete eight-piece kit comes packaged in a solid and light PVC case for easy travel and secure storage.
